THE FIRST GRAY HAIR.

Ano that white hair! It is not mine,
My locks are like the raven's wing;
No fing of truce I fling to time,
No monody to age I sing;
Haste, then, be gone! thou form of fright,
I will not have thee curse my sight.

One gleam of white-but here it iles, A silffened, shining, silvery thread; In sad and plaintive notes it cries, "I've come to tell thee youth has fied. Then in thy presence is me stay; Send not thy messenger away.

And wherefore shrink from sight of me,
As from a bitter thing to roe?
And why behold denyingly,
As though thise age it could renew?
The child was born to grow in years,
And leave his chittlish joys and fears.

Would'st thou an infant always lives
Loved and care-sed as childhood is?
Who for its peace would manhood give,
And make its futile pleasures his?
The higher gifus are bought with tears,
And come to man with rolling years.

True, youth is beautiful and bright,
When love and hope its transport bring:
Its haughing vision dreads no night,
And songs alone its voices slug;
But storm and darkness linger still
Along the way it treads at will.

And thou hast felt the childish joy,

'In faith in man and trust in beaven,
We have a buckler and a shield;
The first to youth is kindly given;
The last, in age we bear a-field.
If I foretell the thorny road,
Know that it leads to Heaven and God.

"And in this tale of lengthened days,
I tell of added wisdom, too;
Of heart withdrawn from seinsh ways,
And gain of what is tried and true.
Then in thy presence let me be,
Send not thy monitor from thee."

Times. The Albany (N. Y.) Evening Jour nat says of Democratic criticisms: "If the criticisms of Democratic papers have little weight with the people, it is because they are marked by so little can-dor. They are now virulently assatting the Republican party and Administration as corrupt and profligate. But they have been doing precisely the same thing for the past ten years, and the accusation commands ro more credit now than it did then. Its palpable falsity has not prevented them from repeating it during all this time, and the people naturally reason, if they did not examine the facts for themselves, that what has so often proved baseless is entitled to no credence or respect now."

Democracy has got to mean different things in different places, preparatory to meaning nothing in all places.
